

COMMERCIAL CARRIERS LIMITED

WE DELIVER NO MATTER WHAT!

Introduction

Commercial Carriers is amongst India's major fleet owners and transport contractors. An experience of 32 years of customer-centric road transportation coupled with a desire to innovate and support the company's operational proficiency to transport a multitude of products throughout the length and breadth of the country.

Vision

To become the most trusted & pioneer in transportation, warehousing and logistics support to the sector and create competitive edge for our clients by optimizing their supply chains through innovation and provide superlative services that add value to their business operations.

Mission

We aim to take care of logistics management and ensure the timely delivery of goods with utmost care. Become competent to add more fleet as per specific requirement of the customers. To be recognized for our service quality, trust and continuous improvement of business operations.

Infrastructure

Since 1978, Commercial Carriers has been catering the needs of the major industrial houses with its own incomparable infrastructure. Our infrastructure also includes its worthy human capital which always tries to cater the needs of our worthy customers.

Operational Hub

Commercial Carriers has 4 acres of operational hub in Jamshedpur with an in-house vehicle repair and maintenance facility. The management of Commercial Carriers firmly believes that efficient and well-organized Fleet Management and operational hub are keys to provide prompt and responsive service to our customers. Several initiatives are constantly being taken up in this core area to upgrade the operations.

Fleet Composition

Commercial Carriers has an assortment of more than 200 trailers capable of carrying a variety of different payloads ranging from 22 metric tons to 200 metric tons. The average age of the fleet is 7 years and fitted with modern GPS to enable better tracking of consignments and facilitate timely communication and delivery of consignments with utmost care.

Equipped warehouses

Commercial Carriers has 3 fully quipped and safeguarded warehouses in Jamshedpur. We own one of the largest warehouses in Jamshedpur where stocks of inventory are maintained on behalf of various parties. The warehouses are equipped with modern fork-lifts and other machinery. Special trained personnel have been recruited for proper inventory management.

Services

Containerized Transportation

Commercial Carriers has excelled in the field of transportation of containerized cargoes. An excellent team has been deputed in Kolkata and Haldia especially for accomplishment of swift delivery of the containers from the ports to the respective production unit of the clients as and when required.

A special tracking team has been assigned with the job to ensure swift delivery and return back the containers to the port before expiry of the slot to avoid further port rent on the client. Apart from this, Commercial Carriers also provides a service of storing containers in unloaded condition and deliver the same as the clients often have a shortage of space for keeping stacks of containers in their production units. This is possible because we own the largest warehouses in and around Jamshedpur.

Our esteemed clients to whom we are providing containerized transportation are :

- ✓ Usha Martin Limited (Jamshedpur and Tatisilwai – Ranchi)
- ✓ TKM Global Logistics Ltd.
- ✓ Anvil Cables Pvt. Ltd.

Raw Material Handling

Commercial Carriers has a chain of heavy tippers which are engaged into the raw material handling on behalf of Usha Martin and dispatching the same to nearest stock yard, railway siding or to Usha Martin Works at Gamharia – Jamshedpur.

We aim to provide a comprehensive team of supervisors who ensure proper, swift and maximum loading per trip so as to achieve maximum tonnage within a given a short span of time.

Commercial Carriers ensures appropriate and consistent raw material handling in fully automatic process. We support companies in turning their innovative projects into reality with state-of-the-art raw material handling processes and technologies. Material Handling is a complex process, and structured attention to even small detail is imperative. That must be why so many of our clients come to us for repeat business.

Heavy Lift Transportation (ODC)

It was the remarkable year of 2004 when Commercial Carriers stepped into the field of heavy lift transportation. Whatever the size may be, Commercial Carriers has always been defining motion with safety and zero tolerance to damage of public property and worthy human life. Presently, Commercial Carriers owns more than 100 nos. of Hydraulic axles, drop – decks and telescopic spacers of different world fame brands. We own 10 nos. of Volvo pullers exclusively for coupling with hydraulic axles.

We have 24X7 crisis management team which keeps itself always ready to mitigate the on road challenges and intricacies that may arise while delivering consignments through different challenging routes. The engineering proficiency of Commercial Carriers in commencing hydraulic consignments is achieved by the group of engineers who believe to spend most of their time at the point of loading rather than working out arithmetical placement of material. Drivers constituting an important part of safety of the vehicles are chosen after detailed investigation and Volvo certified pilots are only recruited for movement of axles carrying heavy load.

Break Bulk Cargo

We know that this type of unique cargo requires extra special care and handling and we aim to transport your special equipments in the safest way possible.

Each year, Commercial Carriers carries large volumes of break bulk cargoes between ports within the country and abroad. We are ideal for transporting a diverse range of general break bulk cargoes such as base as well as machinery equipments, fabricated steel, foundry parts and other engineering / industrial equipments. We are composed of all the ingredients essential for emerging as a reliable and world class break bulk transporting company.

Our primary focus has always been timely delivery with utmost care which set up apart from the crowd and make us the most reliable name in break bulk transportation.
